What WSIPP Indicates about Community Supervision Policies that Reduce Crime

- Focus on higher-risk populations
- Crime deterrence from the swiftness and certainty of punishment, but not for severity of punishment (Swift & Certain sanctions)
- Referrals to programs, delivered with fidelity and assigned based on individual needs
- Supervision that includes face-to-face contact between Community Corrections Officers (CCOs) and supervised individuals, coupled with treatment/interventions

Meaningful Supervision Today

- Assessment: Identification of each supervised individual's risk and needs, and development of an individualized case plan
- Engagement: Regular CCO contact in field offices, home, work, school, and family
- Programming: Referrals and participation in change programs and services
 - Involves community engagement and partnerships to improve communication and wraparound treatment and services for supervised individuals and families

Accountability

- Adherence to Court ordered and DOC imposed conditions
- Swift and certain responses to violations of conditions of supervision
- Reinforce supervision compliance and positive behaviors

Supervision Upon Release

- Supervision includes:
 - Release planning, which includes stakeholder engagement to mitigate risk
 - Approved release address
 - Referrals and access to Cognitive Behavioral Interventions and treatment
 - Temporary housing assistance for individuals transitioning to supervision from prison
 - Ongoing monitoring of supervised individuals:
 - Verification of reported residence
 - Compliance with court ordered conditions
 - Progress in treatment
 - Facilitation of cognitive and behavioral change programs
 - Risk/needs assessments

Without supervision:

Individuals return to their communities without the programs, monitoring, guidance and access to resources towards addressing their needs, thus aggravating their risk to reoffend.

Referrals and Participation

- Based on a supervised individual's assessed needs, CCOs refer them to one or more of the following programs:
 - Thinking for a Change
 - Substance abuse treatment
 - Domestic violence treatment
 - Sex offender treatment
 - Mental health treatment
- Referrals based on higher risk/higher need

Community Corrections Challenges

- Out-of-date workload study (2004)
 - High–Violent: 6.66 hours/month
 - High–Non Violent: 5.77 hours/month
 - Moderate: 3.99 hours/month

- Lack of jail capacity to house violators locally
- Resources and delivery of services may differ from county to county, rural vs. urban areas, etc.
- Complexities around:
